【Educational Objectives】

- To study for self-advancement.
- To make the right decision.
- To be healthy in mind and body.

Publisher: Headmaster Takanori Endo

MOVING INTO OUR BRAND NEW CLASSROOMS!

With the first phase of earthquake resistance construction in the main building completed, the first and second graders conducted the move on October 10 and 11. On this occasion, we carried items over from the old library, the staff room, the headmaster's office, and the secretaries' office, as well as from special purpose classrooms, such as the science and computer rooms. Although it ended up being a lot to transport, the students worked really hard on it. As a result, the move ended without incident, and we were able to start having classes in the renovated classrooms the following week.

The renovated classrooms have been reborn as classrooms featuring an extensive use of wood, bright illumination, and also have AC.

RESUMPTION OF IN-SCHOOL LUNCH PREPARATION !!

On Monday, October 21, the stoves were lit in our school's kitchen for the first time in two years and seven months, and delicious scents wafted out of the kitchen as the making of school lunches resumed. Until now, we had been in the care of Haramachi Second JHS, and had our lunches delivered from there, but from now on we're able to eat fresh lunches and look forward to delicious lunch times.

The following photos show lunch staff putting all their effort into cooking, as well as what that day's menu was.

~TALENTED GUEST GIVES A LESSON~

From October 17, we've received coaching in judo for boys' health and physical education from Mr. Yamada, a resident of Soma. Mr. Yasuda used to be a JHS instructor, and was also one of the leading figures in judo instruction in Fukushima Prefecture.

Even students unaccustomed to wearing judo garb showed rapid improvement by receiving Mr. Yasuda's coaching. Also, for next month's dance health and physical education, we plan to invite Soma resident Ms. Miyahara.

SCHOOL FESTIVAL IN 2 DAYS ! LOOKING FORWARD TO IT !!
